2027 attendance target	Founders & founding engineers	Luma subscribers	Slack members

Packages from $4,000 USD · 2026 rates held for 2027 · Flexible invoicing

THE PEOPLE

Engineers who build. People who take ownership.

Senior and staff engineers, open-source authors, and founders meet here to exchange ideas and talk about the systems they run.

~25%

Founders & founding engineers

People with experience building products, choosing tools, and taking an idea into production.

Approximate audience mix provided by SF Ruby organizers; not a forecast of 2027 registrations.

A sample of the 2026 program

Rosa Gutiérrez

Built Solid Queue, the job backend that ships with Rails 8.

Chris Oliver

Has taught Rails to a generation of developers. Maintains Pay, Noticed and Jumpstart.

Carmine Paolino

Creator of RubyLLM, the Ruby framework for every major AI provider.

2026 examples, not a confirmed 2027 lineup. Attendance targets: 400 in 2026; 450 in 2027.

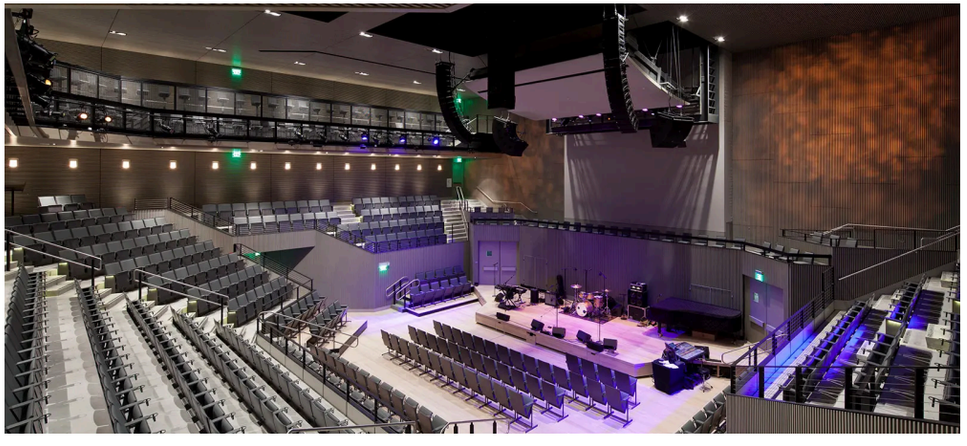

Among our 2026 sponsors

Buildkite · Figma · gusto · persona · chime · WorkOS

SF Ruby 2025 sold out, supported by 33 sponsors. See the 2025 sponsors ↗

THE EXPERIENCE

Bring your engineers. Start real conversations.

SFJAZZ · Hayes Valley

September 9, 2027 at SFJAZZ, one stage, with a community day after it.

Exhibition details and community-day arrangements are confirmed in your proposal.

Conversations around shared work

Attendees tell us what they are working on when they register, and we group them. This is the part people come back for.

A place for your team to meet people

Pickaxe and Ruby include exhibition space. Bring colleagues who can talk about your engineering work, your team, and your open roles.

Stay visible through the job board

All three priced tiers include job postings. Pickaxe includes unlimited postings for a year, with the start date agreed together.

Meet the people choosing the stack

Founders and founding engineers build products and choose the tools behind them. For developer tools and infrastructure teams, SF Ruby is a place for product conversations, demos at your exhibition space, and technical feedback.

WorkOS, Typesense, and Laravel Cloud sponsor the 2026 conference.

THE PACKAGES

Choose how your team shows up.

All prices in USD. Held at 2026 rates, with flexible invoicing.

Included	Pickaxe $20,000	Ruby $10,000	Emerald $4,000

Afterparty · Custom quote

Be the exclusive brand at the afterparty and bring your team into the conversations. Discuss the afterparty ↗

Up to 10 conference tickets · Your branding at the afterparty, with no other sponsor in it · Logo on the website and printed materials · Named at the afterparty · Social media recognition

Confirm exhibition dimensions, placement, equipment, and hours with us. Job-board start dates, social placements, availability, and reservation terms are agreed in your proposal.

PLAN AHEAD

Put SF Ruby in your 2027 hiring plan

2027 packages are held at 2026 prices, with invoicing scheduled around your finance team's needs. Start the conversation now to plan your team's participation and discuss the right package.

01 Share your goals

Tell us the roles and locations you're hiring for, the team you'd bring, or the developers you want to reach.

02 Choose the right package

We'll discuss the package, availability, exhibition needs, and deliverables, then confirm reservation terms in writing.

03 Agree the timing

Share your budget cycle and procurement requirements so we can agree an invoicing schedule and benefit start dates.

For your internal approval
